Shook Lin & Bok

Environmental, Social and Governance

Overview

ESG and Sustainability Lawyers Helping Businesses Build a Sustainable Future

In today's global economy, Environmental, Social, and Governance (ESG) considerations have evolved beyond mere compliance. They are now the fundamental drivers of corporate reputation, long-term resilience, and sustainable growth.

At Shook Lin & Bok, our pioneering ESG practice provides the multidisciplinary expertise required to navigate this shift. Our sustainability lawyers work alongside specialists from our corporate, environmental, employment, real estate, and finance teams to deliver clear, actionable, and strategic advice. Whether addressing standalone ESG mandates or managing complex risks within high-stakes transactions and disputes, we ensure your business remains ahead of the curve.

By combining deep-rooted Singaporean insight with a sophisticated understanding of international regulatory trends, we empower our clients to:

- **Navigate** an increasingly intricate commercial and legal landscape.
- **Anticipate** regulatory shifts before they impact the bottom line.
- **Mitigate** ESG-related risks while capturing high-value opportunities in the emerging green economy.
- **Build** responsible, future-ready enterprises that stand the test of time.

Our comprehensive suite of services is designed to support every facet of your sustainability journey:

- **Advisory**: ESG Compliance, Greenwashing Risk Management, and Anti-competitive Risk Management in ESG Collaborations.
- **Finance & Investment**: Sustainable Financing, Green Investments, and Carbon Markets.
- **Assets & Infrastructure**: Green Real Estate and Leases, Green Infrastructure Projects, and the Protection of ESG-related Intangible Assets.
- **Operations**: Sustainable Supply Chains, and Legal Due Diligence.

Sustainability Catalyst Legal Programme

We are proud to partner with **Enterprise Singapore** to broaden access to specialised legal counsel. Through this initiative, eligible companies can obtain targeted legal assistance from our sustainability lawyers to overcome sustainability-related challenges in several key areas:

- Carbon Markets
- Sustainability Due Diligence and Sustainable Supply Chains
- Infrastructure, Buildings, and Energy and Transportation Projects
- Sustainable Financing
- Sustainability Governance & Reporting

For more information, please get in touch with us, or visit the Enterprise Singapore website here.
