

Shook Lin & Bok Partners with Enterprise Singapore in the Sustainability Legal Catalyst Programme

Singapore enterprises are increasingly cognisant of their exposure to sustainability risks and the sustainability opportunities open to them but may face complex legal and regulatory challenges and lack the specialised knowledge for addressing these risks and seizing the opportunities. We are pleased to be appointed by Enterprise Singapore ("EnterpriseSG") to be a partner in the Sustainability Legal Catalyst Programme ("SLCP") to offer our expert guidance for these enterprises to realise their sustainability ambitions.

Under the SLCP, to make it more accessible for eligible businesses to receive sustainability-related legal services, from 1 February 2025 to 31 January 2027, EnterpriseSG will defray up to 50% of the legal fees for eligible businesses, with a cap of \$90,000 per company.

1. Supported Activities under SLCP

The SLCP offers Singapore business entities access to guidance on specific sustainability-related legal challenges in five areas:

- a. Carbon Markets
- b. Sustainability Due Diligence and Supply Chains
- c. Infrastructure, Buildings, Energy, and Transportation Projects
- d. Sustainable Finance
- e. Sustainability Governance & Reporting

2. Eligibility for SLCP Support

To be eligible, enterprises must meet the following requirements:

- a. Business entity registered or incorporated in Singapore, and
- b. A minimum of 30% local shareholding held by Singaporean(s) and/or Singapore PR(s), based on ultimate individual ownership.

3. Application Process

To join the programme, eligible enterprises must submit their latest ACRA business profile to us and complete a declaration form provided by EnterpriseSG (through us) during the application process. Upon completion of the legal matter, participating enterprises must submit a report detailing the assistance provided by us, using the reporting template provided by EnterpriseSG (through us).

4. Commencement and Completion of Legal Services

To be eligible for the subsidy, the legal services must be rendered and completed between 1 February 2025 and 31 January 2027.

5. Further Information

Eligible companies may wish to consider leveraging on the support provided under the SLCP. We look forward to supporting you on your sustainability journey. More information about our sustainability practice can be found [here](#). We would also love to hear from you if you require more information on the SLCP or would like us to provide a preliminary assessment on your eligibility for support under the SLCP.
